## IN THE HAYWOOD CASE

Task of Selecting a Jury May Occupy All This Week.

### SEVEN HAVE BEEN CHOSEN

Another Special Venire of Talesmen May Have to Be Summoned Before Jury Is Completed—Taking of Evidence Likely to Begin Next Week.

Boise, Ida., May 27.—From present indications it would seem that another week must elapse before the taking of testimony can begin in the trial of William D. Haywood, first of the alleged "inner circle" of the Western Federation of Miners to face a jury on the charge of conspiring to murder Former Governor Steunenberg.

But twelve members of the second special venire remain. A thirteenth talesman was drawn Saturday afternoon just prior to adjournment and is confined with the trial panel. He has yet to be examined as to all of his qualifications. In addition to the vacancy which he may fill, there remain four peremptory challenges, two with the prosecution and two with the defense. The opposing attorneys seem determined to use every challenge the law allows. This means that only seven final jurors have been selected—a little more than one-half—and the trial has been in progress for more than two weeks actual time.

It is predicted that the present venire will soon be exhausted and a third venire will then have to be summoned. If this step becomes necessary the task will occupy the greater part of two days, and on Thursday, Memorial day, there will be no session of court. The jury may be completed Friday evening or Saturday. In either event it is probable that the attorneys for the state will ask for an adjournment until Monday morning in order that the opening address of the prosecution may immediately be followed by evidence.

It was just a plain rying contest, but the prize was to go to the man who told his lie most briefly and casually. "I came in on a suburban train this morning," said the prize winner, "and as I hastily flung up a car window"—Smart Set.

## ENGINE HITS AN AUTO.

Minneapolis Man Killed and Two Other Persons Injured.

Los Angeles, May 27.—As the result of a collision between a heavy touring car and the engine of the Santa Fe limited, Walter Foster of Minneapolis, a guest of the Alexandria, is dead; Miss Genevieve Hart, his companion on the ride, is unconscious and seriously injured, and Carl Wold, the chauffeur, is in a Pasadena hospital with a broken arm and other severe injuries.

The accident occurred at Lamanda park, four miles east of Pasadena. Foster and his companion had visited Monrovia and reached the Santa Fe crossing. The approaching train was invisible to the chauffeur because of intervening trees and houses. When almost on the track Wold saw the train and apparently became confused. He turned the automobile almost directly toward the engine, which was running about forty miles an hour. As the machine was struck, all occupants were thrown out and the automobile was ground to fragments. The three victims were taken to a Pasadena hospital, where Foster died.

Foster arrived in this city two days ago and little can be learned of his connections. The young woman is a resident of Los Angeles.

## MRS. M'KINLEY DEAD

Widow of the Late President Dies at Canton, O.

### PASSED PEACEFULLY AWAY

Transition From Life to Death So Peaceful and Gradual That Physicians With Difficulty Noted When Dissolution Came.

Canton, O., May 27.—Mrs. William McKinley died Sunday afternoon at 1:05 o'clock. The transition from life to death was so peaceful and gradual that it was with difficulty that the attending physicians noted when dissolution came.

There was no struggle—no pain. Mrs. McKinley never knew of the efforts made for days to prolong her life, nor of the solicitous hope against hope of her sister and other relatives for her recovery.

At the McKinley home when death came there were present Secretary Cortelyou, Mr. and Mrs. M. C. Barber, Mrs. Sarah Duncan, Mrs. Luther Day, Justice and Mrs. William R. Day, Doctors Portman and Rixey and the nurses.

"Mrs. McKinley lived hours longer than we expected," said Secretary Cortelyou.

"Her vitality was wonderful," said Dr. Portman.

It was by Secretary Cortelyou that the announcement of the demise was given to the public. As this was flashed over the land, William McKinley post and George D. Harter post, G. A. R., were forming in line, and to the strains of "The March Religiosa" went to the First Methodist Episcopal church to listen to the annual memorial address, which was given by Dr. Buxton, Mrs. McKinley's pastor.

Dr. Buxton will have charge of the funeral services, which are to be simple. They will be held at the McKinley home at 2 o'clock Wednesday afternoon.

Secretary Cortelyou is directing arrangements and will remain here until after the funeral.

### President Will Attend Funeral.

Dr. Rixey has left here for Washington. He will join President Roosevelt and go with him on his trip to Indianapolis and Lansing this week. It has been announced that President Roosevelt and Secretary Loeb would arrive in Canton Wednesday morning to attend the funeral. Vice President Fairbanks, who had often been a guest of the McKinleys, is expected to reach here in time to attend the service.

The body of Mrs. McKinley will be placed in the vault in West Lawn cemetery, which holds the body of her husband, until the completion of the National Mausoleum on Monument hill, when both caskets will be transferred to receptacles in that tomb.

From numerous friends of the deceased, Mrs. Barber received telegrams of condolence on the death of her sister. Among them were telegrams from President Roosevelt and Vice President Fairbanks.

Mrs. McKinley's life of almost sixty years had been made familiar to the nation by the fact that for over thirty years she was an invalid. Through all this, however, she showed an unwavering faith in the career of her husband and by her cheering words encouraged him when darkness was at hand.

She believed that his star of destiny would never set until he had become president and for more than a quarter of a century cherished that belief.

After President McKinley's death she expressed a desire to join him and prayed day by day that she might die. Later, however, she frequently told friends that she desired to live until the completion of the McKinley mausoleum, which is the gift of the nation, and which is to be dedicated on Monument hill Sept. 30, next.

### Was Born in Canton.

Ida Saxton McKinley was born in Canton, O., June 8, 1847. James A. Saxton, her father, was a progressive banker and his wife a lady of extraordinary culture. Ida Saxton was reared in a home of comfort and ease. After attending Canton schools she was a pupil at a private school at Delhi, N. Y. Later she went to a Cleveland academy and finished her education at Brook Hall seminary, Media, Pa., where she spent three years.

Part of the years of her young womanhood were spent in the Stark County bank, which belonged to her father. On several occasions she had charge of the institution.

While she taught Sunday school in the Presbyterian church, young William McKinley was superintendent of the First Methodist Episcopal Sunday school. Among many suitors who had been with Grant of Sheridan and won distinction in the Shenandoah valley, was the favored one.

By James Saxton, the father, these words were spoken to McKinley when

the hand of the daughter was gained: "You are the only man I have ever known to whom I would entrust my daughter."

On Jan. 25, 1871, William McKinley and Ida Saxton were united in marriage.

The wedding was the first performed in the new Presbyterian church, Rev. Dr. Buckinham of that congregation and Rev. Dr. Endsley of the First Methodist church officiating.

After an Eastern trip, including Washington, the McKinleys purchased

the home on North Market street which in later years became famous as the McKinley cottage. It was during their short sojourn in this home—hallowed to them by so many sorrows—that Mrs. McKinley's health broke down under the burden of grief. There were born to them two daughters, Katie, on Christmas day of 1871, and Ida, on April 1, 1873. But the mother's heart was broken when Ida passed away in August, 1873. Mrs. McKinley's mother having died the month before the child was born. Katie, the first born, lived for three and one-half years. Then it was that the almost broken-hearted wife became an invalid. Her life as the wife of William McKinley was a most happy and devoted one. They never "kept house" while he was in congress, because of her invalid state. She, however, desired to be with him as much as possible and spent much time in Washington. On his tours when he was congressman, governor and president, she travelled with him as much as practicable.

After Governor McKinley's term of office ended they came to Canton in January, 1896, in time to celebrate their silver wedding anniversary in the first home of their early married life. This wedding anniversary was the beginning of a year and two months residence in Canton, during which Mr. McKinley was nominated and elected president of the United States. At Washington, as the first lady of the land Mrs. McKinley was unable to act as hostess at brilliant social functions.

After the crushing blow which came to her when the assassin's bullet struck down her husband, friends despaired of her life for a month or more. However, she rallied and for several years enjoyed better health than usual. She would not consent to leave her Canton home.

### Fond of the Drama.

Mrs. McKinley was fond of the drama. She and her husband numbered as one of their most intimate friends the late Joseph Jefferson, who was frequently a guest at the McKinley home.

Among her diversions was the crocheting of slippers, which she bestowed as keepsakes to friends, handed to needy persons or gave to bazaars. More than 3,500 pairs of slippers were knitted by her and given away. Mrs. McKinley was fond of flowers, the rose being her favorite for many years. In recent years the president's carnation shared a place in her admiration.

Bereft of children early in her married life, she showed her intense affection for children until the end. It was a common thing for her to stop her carriage when driving along the street and call to her some child and kiss it.

The McKinley estate, which was left by the president, was appraised at \$215,000 when the inventory was made. It has increased in value since that time. By the terms of the will of Mr. McKinley the estate at the death of Mrs. McKinley was to be divided equally among his brothers, Abner McKinley, now deceased, and his sisters, Mrs. Duncan and Miss Helen McKinley of Cleveland.

Mrs. Hermanus Baer (Mabel McKinley) is the daughter and heir of Abner McKinley.

## CAUSED PROFOUND SORROW

News of Mrs. McKinley's Death Received in Washington.

Washington, May 27.—While little hope was entertained here for her recovery, the news of the death of Mrs. McKinley caused profound sorrow in the national capital, where she so long made her home while her husband was a member of congress and later president. President Roosevelt learned of her death when he received a telegram from Secretary Cortelyou, who has been in Canton since Mrs. McKinley was first stricken. He immediately announced that he would leave for Canton Tuesday night to attend the funeral.

Secretary Root and Secretary of Agriculture Wilson, the only members of the cabinet who served under President McKinley, and Rev. Dr. Frank M. Bristole of the Metropolitan Methodist church, who was the McKinley pastor, were deeply touched when they were told that Mrs. McKinley was dead. There were expressions of regret from many officials whose duties brought them in contact with the White House and from all the attaches of the executive mansion, many of whom served there during the McKinley administration. All paid the highest tribute to the memory of the late president's widow.

President Roosevelt will be accompanied on his trip to Canton by Sec-

If any one has any doubt as to the virtue of Foley's Kidney Cure, they need only to refer to Mr. Alvin H. Simpson, of Williamamantic, Conn., who, after almost losing hope of recovery, on account of the failure of so many remedies, finally tried Foley's Kidney Cure, which he says was "just the thing" for him, as four bottles cured him completely. He is now entirely well and free from all the suffering incident to acute kidney trouble. H. P. Dunn & Co. mwfwd

### THREE BOYS KILLED.

Train Sweeps Them From a Bridge Into a River.

Morristown, Ind., May 27.—An accident causing the loss of three lives occurred on the Cincinnati, Hamilton and Dayton railroad bridge over Blue river, one mile east of here. Frank St. John, Orville Babb and Joseph Fairchild, aged sixteen, seventeen and eighteen, all of Indianapolis, were sitting on the bridge looking down into the stream when fast passenger train No. 37 bore down on them, sweeping all three into the river.

PUZZLES IN NATURE.

Some of the Seeming Contradictions  
That Science Encounters.

The man of science, like the man of  
law, has brought before him many an  
anomaly; but, unlike the judge or the  
advocate, he knows that the contradic-  
tions he studies are only such in seem-  
ing. He feels confident that nature at  
the core is in agreement with herself.  
Any day, he believes, these apparent  
contradictions may be resolved into  
cases of detected law, not simple  
enough to disclose itself to aught but  
the most rigorous analysis.

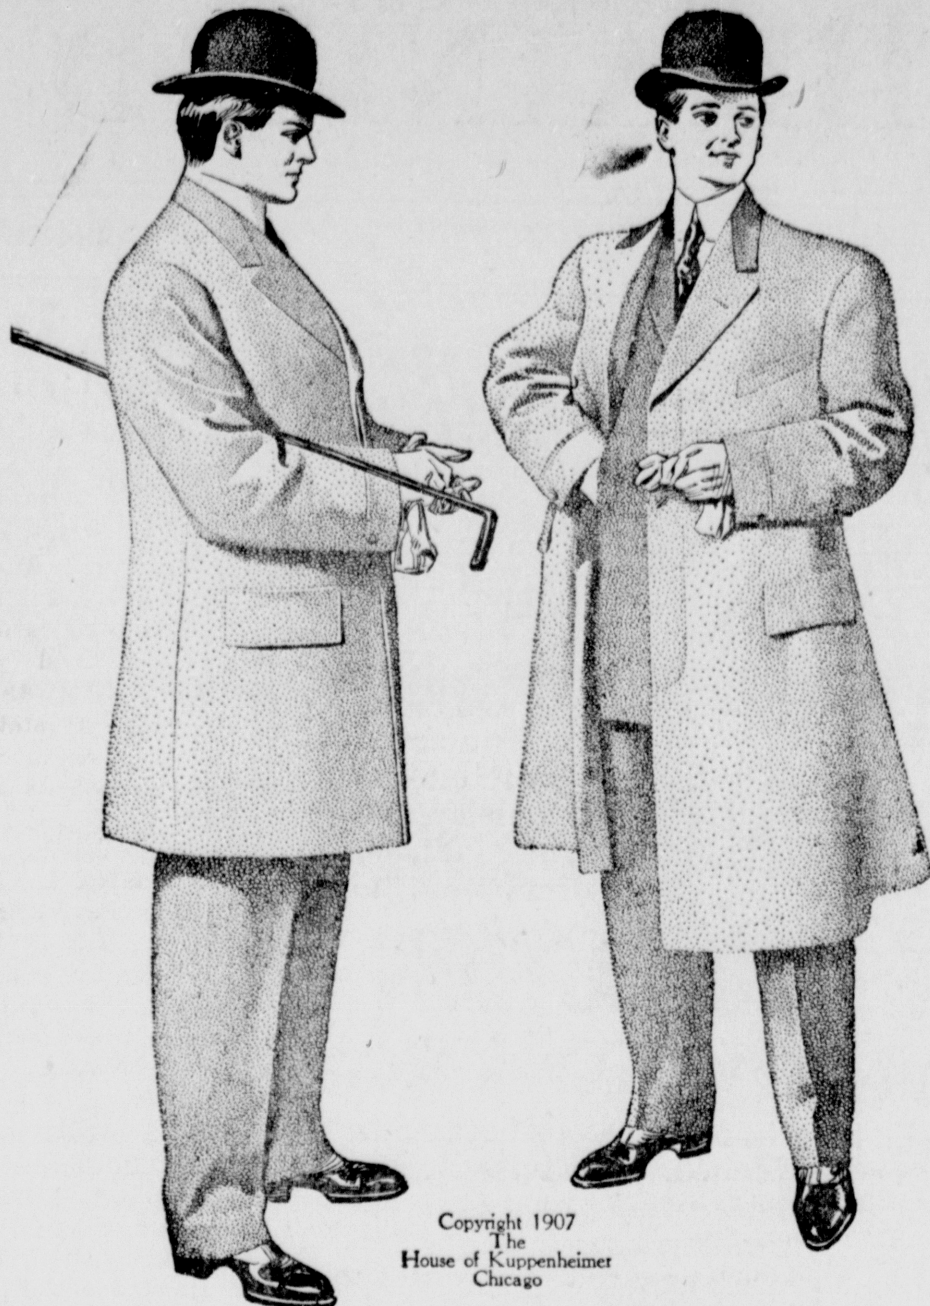

In the realm of heat it seems that  
certain rules of radiation, conduction,  
boiling points and the like are general,  
not universal. In most cases they act  
as if alone; in a few cases their effect  
is masked by causes as yet not under-  
stood. Let a few cases as perplexing as  
that of the alloys under refrigeration  
be briefly recounted.

Common solder has a lower melting  
point than any of its ingredients. Sul-  
phur fuses at 120 C. and thickens again  
at 220 C. When steel is heated and  
dipped into cold water it is hardened;  
the same treatment softens copper.  
While almost every substance expands  
with heat, rubber shrinks. In most  
cases electrical conductivity is impaired  
by increase of temperature, yet a  
carbon pencil rises to an almost three-  
fold augmentation of conductivity  
when brought to incandescence in an  
electric lamp.

We may be well assured that when  
these anomalies are resolved the ex-  
planations will bear in their train other  
difficulties for research yet more  
subtle. Science never does worthier  
work than when, as here, she points  
to her own unfinished walls and bids  
the student as a privilege and a duty  
to supply their gaps as best he may.—  
George Hies.

"Old Moore."

"Old Moore," under whose name al-  
manacs and prophecies have been  
appearing regularly for generations,  
was not a charlatan. His name was  
Henry Andrews. He was a bookseller  
of London, and, according to an old  
year book, "his prophecies were as  
much laughed at by himself as by the  
Worshipful Company of Stationers, for  
whom he manufactured them, in order  
to render Moore's almanac salable  
among the ignorant, in whose eyes a  
lucky hit covered a multitude of blun-  
ders." Andrews "had a very extraor-  
dinary genius for astronomy and was  
greatly esteemed for his integrity and  
modesty by every scientific man who  
was personally acquainted with him."

THE U. S. GATHERING  
DIVORCE DATA

Wm. Ranger, of Washington,  
Here Examining Divorce  
Records

HE GOES BACK 20 YEARS

This With Data on Hand Will  
Give Government Complete  
Record for 40 Years

Wm. Ranger, of Washington, D. C., a  
clerk in the department of Commerce  
and Labor, arrived in this city Saturday  
afternoon, and is engaged in making  
copies of parts of the divorce records in  
the office of the clerk of the district  
court. The statistics are prepared by  
him on cards and each card, which is  
devoted to one case only, will contain  
the following information:

State or country in which married;  
date of marriage; date of separation;  
date of filing petition; begun by hus-  
band or wife; how notice was served  
(personally or by publication), was case  
contested; was decree granted or not;  
whether or not intemperance was a di-  
rect or an indirect cause; whether ab-  
solute or limited divorce; number of  
children by the union and number af-  
fected by the decree; whether or not  
alimony was asked and granted; occu-  
pation of both parties; residence of one  
sued.

The records in the office of every clerk  
of a court granting divorces in the  
United States are being examined, for a  
period of twenty years, from January 1,  
1887 to January 1, 1907, and as the de-  
partment has the results of a similar  
investigation twenty years ago, covering  
a like period, it will have a record for  
forty continuous years.

Mr. Ranger, who is doing the work in  
Crow Wing county worked from August  
1st to December 1st, 1906, on the records  
of Ramsey and Hennepin counties, and  
has since put in most of his time in the  
southern part of the state, running over  
to Sioux Falls and looking up the  
records of that famous divorce mecca.

All kinds of job work neatly executed

LITTLE FALLS  
GIRL STOLE BABY

THOUGHT TO BE INSANE

Minneapolis Police Force and  
Newspapers Hunt Down the  
Kidnapper

SPECIAL TO THE DAILY DISPATCH:  
Little Falls, May, 27.—Several former  
Little Falls people were mixed up with  
the Giaque kidnapping case, one of the  
strangest in the annals of the city of  
Minneapolis. Annie Ouestrusky, who  
was hired as nurse in the Giaque family,  
and who took the child to Superior  
and placed it in an asylum there, was  
brought up in Little Falls. She lived  
here until she went to Duluth a few  
years ago where she is reported to have  
been married and to have a husband  
and baby. She left them a few weeks  
ago and went to Minneapolis, stopping  
at the home of Mr. and Mrs. Kurepik,  
formerly of this place. While there she  
hired out to Mrs. Giaque, and left with  
the child when it was only four days  
old.

The fact of the girl's history and prob-  
able destination was learned by the po-  
lice through Stella Wright, who knew  
her in this city and who visited her in  
the Giaque home where she went under  
the name of Bessie. Since the kidnapp-  
ing Miss Wright remembered that An-  
nie introduced her to her employer as  
Stella Laminsky. As soon as she learned  
of the kidnapping Miss Wright sought  
the police and told them all possible of  
the girl.

The song, "Old Black Joe," was finely  
rendered by H. W. Woodson and the  
Dixie Rangers Quartette presented some  
very good numbers. Gus Stevens in  
"A Partner Wanted" had the gallery  
go wild over his representation as an  
up-to-date female skirt dancer. His  
makeup was good and his soprano voice,  
both in speaking and singing was in-  
imitable, as was his acting. When he  
dressed his handsome auburn wig at the  
close of the stunt and inquired in a very  
base voice, "How is that, boys," you  
could have bought the entire gallery for

of the audience from the moment the  
curtain went up on a darkened stage lit

in red, and looked his name. If there  
were any stunts of magic which he could  
not do they would be hard to name. He  
juggled heavy tables and six-inch can-  
non balls as if they were toys.

**THE SHOP STRIKE  
IS SETTLED**

Nearly all Men who had Gone  
Out went to Work at the  
Job this Morning

**THE MEN MAY ORGANIZE**

Rumor that an Agreement to  
That Effect is a Part of the  
Settlement

The strike of the freight handlers at  
the shops is over. The larger part of  
the men who went out returned to work  
this morning in consequence of an  
agreement reached yesterday. The  
wages to be paid are \$1.75, the same as  
before the strike, is stated by shop  
officials today. A rumor which THE  
DISPATCH is unable to verify is that the  
men go to work at the old wages with  
the agreement that they organize and pre-  
sent their negotiations for more money  
in the usual manner of the other unions,  
giving the company thirty days notice  
of their demands. The report is that  
the representatives of the company have  
given assurance that these demands  
will then receive the same consideration  
as the negotiations conducted by other  
organizations existing among the men.  
It is also stated that an extra gang will  
be brought up from the cities to assist  
in catching up the work which got be-  
hind during the absence of the men.  
H. L. Jones, division store keeper was  
seen late this afternoon. About all he  
would say in the matter was to ask THE  
DISPATCH to emphasize the fact that the  
men brought from St. Paul were not in  
any sense to replace the old men, but  
rather to assist in the annual inventory  
always taken May 31. The old men will  
not be discriminated against in any way  
he stated. He added that he could still  
use a dozen or so more men during this  
work if they presented themselves.

as mercury will surely destroy the sense of smell

Saturday Evening Saw Close of

Many Years

The jury in the case of the Potter-  
Casey company, of Aitkin, vs. M. M.  
Howe, of this city, found a verdict in  
favor of the plaintiff for the amount of  
\$1,238.78. The case was brought to re-  
cover the value of goods furnished on  
the order of the firm of Bonness & Howe  
and turned entirely on the interpreta-  
tion of the order. The jury evidently  
coincided with the position of the the  
Potter-Casey company and decided that  
the order covered the goods and condi-  
tions involved. This case closed the  
work of the term. Several cases were  
dismissed before reaching trial. In the  
divorce case of Mary Rolph vs. Edwin  
Rolph a decree was granted.  
Several other cases were continued  
either to another term of court or for  
hearing before Judge McClenahan in

**THE BUSY BEAVERS.**

These Tireless Workers Have Altered  
America's Landscape.

Because its operations are chiefly  
nocturnal, so that it is seldom or never  
seen, and because of its skill in con-  
trolling water and in house building,  
something of mystery has grown up  
about the beaver. It is said that it  
fells trees for the purpose of building  
its dams and can lay a tree where it  
wishes to with the accuracy of the most  
skilled axman. It is said also that it  
uses its tail as a trowel, plastering the  
mud on its houses and dams with this  
appendage as a mason spreads his  
mortar.  
Myths like these will probably have  
a long life. The latter belief is no  
doubt encouraged by the beaver's fre-  
quent habit of slapping the water or  
earth with its tail as an alarm signal  
whenever it is startled. There are  
many unexplained things about the  
beaver's life.  
Long before the white man came to  
America the beaver was hard at work  
building his dams all over the country  
and in narrow and sometimes in wide  
stream valleys, arresting the water  
and so collecting in its ponds the de-  
tritus swept down from the hills and  
from the upper reaches of the stream.  
As this sediment gradually filled up  
the shallow ponds the beaver moved  
to other places, and when in time the  
dam broke down and the waters drain-  
ed off a wide level meadow was left—  
the bottom of the old pond.  
All over the continent in suitable lo-  
calities, from Mexico north to the tree  
limit and from the Atlantic to the Pa-  
cific, this was going on century after  
century, and in this way no doubt were  
made vast areas of level meadow,  
whose origin is now unsuspected by  
the people who occupy them.—Forest  
and Stream.

# Do You Think For Yourself?

Or, Do You Open Your Mouth Like a Young Bird and Gulp Down Whatever Food or Medicine May be Offered You?

If you are an intelligent, thinking woman, in need of relief from weakness, nervousness, pain and suffering, then it means much to you that there is one tried and true, honest medicine of known composition, sold by druggists for the cure of woman's ills.

The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible indorsement of the leading and standard authorities of the several schools of medical practice, are not afraid to print, as they do, the list of ingredients, of which it is composed, in plain English, on every bottle-wrapper.

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, so injurious to delicate women even in small quantities when long continued. Neither does it contain any narcotics, or other harmful, or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famed medicine is advised by its manufacturers.

No other medicine for woman's ills has any such professional endorsement as Dr. Pierce's Favorite Prescription has received, in the unequalled recommendation of each of the several ingredients by scores of leading medical men of all the schools of practice. Is such an endorsement not worthy of your consideration? It certainly is entitled to far more weight than any number of non-professional, or lay testimonials.

A booklet of ingredients, with numerous authoritative professional endorsements by the leading medical authorities of this country, will be mailed free to any one sending name and address with request for same. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For over-worked, "worn-out," run-down, debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability,

nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the female system.

If a woman has bearing down, or dragging pains, low down in the abdomen, or pelvic, backache, frequent headaches, dizzy or fainting spells, is nervous and easily startled, has gnawing feeling in stomach, sees imaginary floating specks, or spots before her eyes, has melancholia, or "blues," or a weakening disagreeable drain from pelvic organs, she can make no mistake by resorting to the use of Dr. Pierce's Favorite Prescription. It will invigorate and tone up the whole system and especially the pelvic organs.

No woman suffering from any of the above symptoms can afford to accept any secret nostrum or medicine of unknown composition, as a substitute for a medicine like Dr. Pierce's Favorite Prescription, which is of known composition and has a record of over forty years and sells more largely to-day than ever before. Its makers withhold no secrets from their patients, believing open publicity to be the very best guaranty of merit.

Dr. Pierce invites all suffering women to consult him by letter free of charge. All letters of consultation are held as sacredly confidential and an answer is returned in plain sealed envelope. Address: Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Advisor will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. They are the original Little Liver Pills having been put out for sale by Dr. Pierce over 40 years ago. Much imitated, but never equalled. One to three a dose. Tiny sugar-coated granules; easy to take as candy.

Dr. Pierce's Golden Medical Discovery is a most potent alternative, or blood-purifier, and tonic, or invigorator, and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels (as mucous diarrhea), bladder, uterus or other pelvic organs. Even in the chronic or ulcerative stages of these affections, it is often successful in affecting cures.

## Bad Fire in Mexico.

San Luis Potosi, Mex., May 27.—The great machinery supply and hardware house of Fogarty & Dickinson, one of the largest dealers in Northern Mexico, has been completely destroyed by fire, causing a loss of about \$500,000, much of which is covered by insurance.

## Bloodlessness or Thin Blood

Because they actually form a certain amount of blood each day, Dr. A. W. Chase's Nerve Pills are an unequalled success as a treatment for bloodlessness or anaemia, as it is sometimes called.

Lack of blood is indicated by paleness of the lips, gums and eyelids, and is usually accompanied by weakness, tired feelings, indigestion and low spirits.

Anaemia is generally very difficult to overcome, but you can be certain that every dose of Dr. A. W. Chase's Nerve Pills are doing you at least some good, because of their blood-forming qualities, and that persistent treatment will be rewarded by thorough cure.

Science has discovered the elements of Nature which go directly to the formation of new, rich blood, and these are most happily combined in Dr. A. W. Chase's Nerve Pills, which have in hundreds of thousands of cases proven their marvelous power to create new blood and build new, firm flesh and tissue. Dr. A. W. Chase's Nerve Pills, 50 cents a box, 6 boxes for \$2.50, at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

## PRIEST IS MURDERED

Body Found in a Trunk in a New York Tenement.

### ROBBERY MOTIVE OF CRIME

Rev. Father Kaspar of Hoboken, N. J., Believed to Have Been Killed for His Money—Placed in the Trunk While Still Alive.

New York, May 27.—Rev. Father Kaspar of the Armenian Apostolic church of Hoboken, N. J., was murdered in this city some time last week. The body was found in a trunk which had been left as security for their rent by two Greeks who three weeks ago engaged a furnished room of Mrs. Henry Sherer, who occupied the third floor of a tenement at 333 West Thirty-seventh street.

When last Wednesday the rent was not forthcoming her lodgers, both Greeks, told her that she was amply secured by their well filled trunk. The following morning the men disappeared and later the trunk was broken open. To the horror of Mrs. Sherer it was found to contain the badly decomposed body of a man believed to have been a priest of the Greek church.

The body was in a kneeling posture with the head bound against the knees by a heavy strap that passed over the back of the neck and was buckled under the shins. The murdered man must have been about sixty years of age. A flowing beard twelve inches long was streaked with gray, but the long and bushy hair was black. An undershirt of balbriggan and a cuff on the right wrist were all the body wore, but on top of it had been thrown three coats of clerical cut, a white laundered shirt, two pairs of black lace shoes, a soft felt hat, two Roman collars and a detached cuff.

A meal ticket found in the trunk was issued by a restaurant at 1222 Halsted street, West Pullman, Chicago.

### Visited by a Clerical Looking Man.

Mrs. Sherer told the coroner that when the two men engaged the room in her home they described themselves as John and Paul Sarkis, each about thirty-five years of age. The men had been visited by a man wearing a clerical garb who looked not unlike the murdered man.

Late Wednesday afternoon an express wagon brought to the house the trunk which later was found to contain the body. That night Mrs. Sherer asked her roomers for the rent due. They pointed to the trunk and said it would be found to contain ample security for what they owed. The trunk remained in the house, though the roomers had left before Mrs. Sherer was up the next morning. She did not see them again. The next day unpleasant odors were detected coming from the room the strangers had occupied and finally Mrs. Sherer appealed to the police and the trunk was forced open.

At the morgue the body was identified as that of the priest. He had lived at 608 Monastery street, West Hoboken, and frequently made trips to this city soliciting funds for his church.

Father Kaspar, carrying a small feather bag in which his collections were placed, came to be a familiar figure in Greek and Armenian circles here, and it is believed that he was murdered for the money he carried.

The autopsy revealed that the priest had probably been drugged and placed while still alive in the trunk, there to be suffocated to death. The neck and one arm had been broken, but apparently these injuries had not been the cause of death. Thrown upon the body and as if to fill the trunk to the point of suffocation, was the priest's clothing.

### Had Been Dead Several Days.

The coroner's physician said that the man had probably been dead six or seven days. The contents of the stomach will be examined to determine whether some drug was used. The police have sent out a general alarm for Sarkis, Ermanjan, Sarki Barmovion and Paul Saristan.

Simon Pashakarian of 506 Tenth avenue identified the trunk as belonging to Sarki Ermanjan, an Armenian, who, he said, roomed with him for four months and up to last Monday night, when he quit the house.

Parhakarian told the police that Ermanjan previous to his coming to this city had worked in a restaurant in West Pullman, Chicago.

The police theory is that the priest was murdered in the Tenth avenue house. They believe that the priest was lured to this room, there drugged, robbed and murdered and the trunk later sent to the West Thirty-seventh street address. According to one man who saw the body, Kaspar went to Hoboken from Providence, R. I. He had been in the habit of taking his meals at a Greek restaurant in West Fortieth street. The bag in which he carried his collections was found with his clothing.

The identification of the body was made by John Karanfillian, a trustee of the Armenian church of Hoboken.

Karanfillian said Father Kaspar lived at the home of Bishop Horsap Sarvgin. The trustee said that Father Kaspar had visited at his (Karanfillian's) house on Sunday afternoon two weeks ago, and that he had not seen the dead priest since.

Father Kaspar, according to Karanfillian, had been in this country five

years, but had no parish, going from city to city as a visiting clergyman.

The autopsy developed that the neck had been broken as had one arm. Coroner's Physician Lehane declared, however, that death was due to suffocation.

Kidney complaint kills more people than any other disease. This is due to the disease being so insidious that it gets a good hold on the system before it is recognized. Foley's Kidney Cure will prevent the development of fatal disease if taken in time. H. P. Dunn & Co. mwfdw

### DESCRIBES THE CRIME.

Alleged Slayer of Amelia Staffeldt Makes Another Confession.

New York, May 27.—Henry Becker, under arrest in connection with the slaying of Amelia Staffeldt in Elmhurst last Wednesday, is alleged to have made another confession to detectives describing with minuteness how the crime was committed.

His first statement, in which he saw a companion assault the girl, was subsequently retracted.

He was taken to the scene of the crime and was identified by Miss Emily Simonson as one of the men who washed at the pump in her yard on the day of the murder.

Becker was asked about the second man that had been talked about in connection with the case and for the first time admitted that he never saw this man before he was about to go into the Simonson yard.

Becker was then taken back to the jail, and during the ride from Elmhurst to Long Island City he told the detectives, it is alleged, the most shocking part of his story. He said that he would feel better if he told the whole truth. He described how he had been sleeping in the fields and saw the girl enter the lot in search of dandelions.

"I went up to her," it is asserted he said, "and tried to get up a flirtation, but she told me to go away. 'If you don't leave me,' she said, 'I will call a policeman.' I can't remember somewhat just what happened, but I know I took hold of her, then I hit her in the back of the head with a stone. After that I struck her once or twice with the knife."

### HIDDEN DANGERS.

Nature Gives Timely Warnings That No Brainerd Citizen Can Afford To Ignore.

Danger signal No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys secrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

Danger signal No. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here's Brainerd proof:

Philip O'Neal, of 516 Norwood St., Brainerd, Minn., says: "Brainerd people have seen in the local papers the testimony I gave in 1890 recommending Doan's Kidney Pills, and many times I have been called upon to corroborate that statement in personal interviews. My confidence in Doan's Kidney Pills has not been lessened during the past six years. It has shown itself equal to all the claims made for it. I was a sufferer for a long time from backache and pains in the loins. The kidneys were too frequent and much disordered. The trouble became worse and worse and nothing helped it until I got Doan's Kidney Pills at H. P. Dunn & Co.'s drug store. I used this remedy faithfully until the annoyance from the kidney secretions ceased and the pains and backache disappeared. The cure then effected has been most gratifying and altogether permanent."

### WOULD DEPOSE VOLIVA.

"Rebels" of Zion City Unite With That Object in View.

Chicago, May 27.—Following a riotous meeting in Shiloh tabernacle at Zion City in the course of which Wilbur Glenn Voliva, the late John Alexander Dowling's successor as head of the Christian Catholic church, found it necessary to call for police intervention to restore order, a union of factions opposed to the younger ruler was effected which, it is said, is destined to overthrow Voliva at the September church council. The clash came over the alleged opposition of Voliva to the calling of a general conference.

Deacon V. V. Barnes, Overseer J. F. McCulloch and other "rebels" after trying to address the meeting, arranged a subsequent one at the Zion college building which was attended by 800 opponents of Voliva, who banded themselves together to depose the general overseer.

### COSTLY FIRE IN IOWA.

Two Firms Sustain Heavy Loss From Flames and Water.

Decorah, Ia., May 27.—The worst fire Decorah has experienced in several years occurred when A. Neish & Sons' dry goods stock was almost totally ruined and Larsen Bros., clothiers, sustained a large loss from water.

The fire apparently originated in the carpet department on the second floor of the Neish store, where linoleums also were kept. When discovered a small flame was blazing up the wall, but before the department could reach the scene the fire had broken through the roof and was making rapid headway. For over two hours the firemen fought the flames before they had them under control. The total loss is estimated at between \$30,000 and \$40,000.

### MYSTERY SURROUNDS CASE

Body Found on Lake Superior Beach at Duluth.

Duluth, May 27.—Mystery surrounds the fate of Mary Pierce, at least it is supposed to be her name, for she left a letter addressed to Gertrude Pierce, supposedly her sister, which was in the little handbag found near the body in the waters of Lake Superior near Seventieth avenue east by a stroller on the beach. It appears that she was not a Duluth woman and where her home was has not been established.

The once handsome face was severely bruised and the question arises did the young woman commit suicide or was she the victim of foul play, and the letter a blind to lead the authorities to believe that it was a case of suicide.

Mrs. S. Joyce, 180 Sullivan St., Claremont, N. H., writes: "About a year ago I bought two bottles of Foley's Kidney Cure. It cured me of a severe case of kidney trouble of several years' standing. It certainly is a grand, good medicine, and I heartily recommend it." H. P. Dunn & Co. mwfdw
